

Part codes for available HSK CONNECTIONS*

To configure your toolholder you need to choose one of the following connections first.

*See page 69 for the complete list of EN manufacturing rules.

Milling chucks

The high clamping force, combined with the ease of use, makes milling chucks ideal for generic cut and milling operations.

Part code	Description	D	d	L	L1	Connection	Balancing (RPM)
AT00	milling chuck	54	20	95	69	HSK50A-E	24,000
AT01	milling chuck	64	25	95	69	HSK50A-E	24,000
AT01	milling chuck	64	25	95	69	HSK63A-EF	20,000
AT02	milling chuck	74	32	95	69	HSK63A-EF	20,000
AT03	milling chuck	74	32	105	79	HSK80A	18,000
AT04	milling chuck	74	32	105	66	HSK100A	18,000
AT05	milling chuck	74	32	130	101	HSK125A	18,000
